

Product Specifications

Part Number: CTB-15
1.5" Wide Self Fusing
Weatherproofing Tape

Dimensions

Width: 1.5in
Thickness: .03in
Length: 15ft
Weight: 1lb

General Specifications

Provides protection where heat/flame is prohibited
Covers any shape including high transition areas and elbows
Clean strippable
Layers fuse together to form a boot that provides complete environmental protection and insulation
UV and ozone resistant
Proven long term protection

Product Application

Weatherproofing protection of connectors in tight locations or when heat/torch is not permitted
Protect connectors in adverse environmental conditions
