

# Product Specifications

Part Number: SBB-34  
Stainless Steel banding

## Dimensions

---

0.75" x 0.03" x 100' roll

## General Specifications

---

Individually packed in a plastic tote  
Utilized in general use banding applications  
Can be used with clip style buckles to create band clamps

## Mechanical Specifications

---

SS 201

## Product Application

---

Utilized in general use banding applications
